

Why Sign an Exclusive Marketing Contract with Jordan Craig Machinery?

Selling your used CNC fabricating machinery can be fraught with pitfalls if you try to do it on your own or via multiple equipment brokers.

Here's why an exclusive marketing agreement with Jordan Craig Machinery is a better way to get that equipment off your shop floor:

You benefit from our proven marketing system. We know how to price your machine so it sells at a fair price, and we know how and where to list it to attract buyers.

You are connected to our extensive network of buyers. We've been selling CNC fabricating and metalworking machines for 25 years and have developed an extensive network of potential buyers for your machine.

Your machine can sell faster. Under an exclusive agreement, we are empowered to provide the buyer full disclosure on your machine's service and maintenance history. This means the buyer can act expeditiously to make an offer.

You can sell with less hassle. Without an exclusive marketing agreement, your machine would be listed on multiple broker sites – which means you must spend time and effort dealing with all those brokers. It's also confusing for any potential buyer who is calling those brokers and not getting a straight story out of any of them. With an exclusive agreement, you deal with *one* broker and we screen prospective buyers, making the process easier for you – and the serious buyer.

We look out for your best interests. We know the market and are fully committed to getting your machine sold at a fair price and in a timely fashion.

We stand behind our work. We have a reputation for transparency and integrity in the industry. We're not one of those inexperienced or shady brokers who have a list of equipment on their website but don't know what they're selling. And we don't run phony online auctions or bids, like some brokers do, that waste the buyer's and your time.

Are you ready for better way to sell your used CNC fabricating machines? Contact Jordan Craig at jc@jordancraigmachinery.com or 845-398-0073 to discuss our exclusive marketing contracts.
